Drive Clean Taxi Voucher Program Application

To help increase the City of Chicago’s green taxi fleet, the Chicago Department of Transportation (CDOT) is providing \$1,275,000 in incentive funding through **Drive Clean Chicago’s “Drive Clean Taxi Voucher Program,”** formally known as the *Green Taxi Voucher Program*. The **Drive Clean Taxi Voucher Program** (Program) provides incentives up to \$10,000 toward the purchase of a new eligible Compressed Natural Gas (CNG) or battery electric vehicle (EV) or the conversion of a conventional vehicle with an eligible CNG conversion kit.

Please refer to the Program’s Web site and the Drive Clean Taxi Implementation Manual for detailed rules and requirements governing this fund (<http://drivecleanchicago.com/>).

- The purchaser of a new eligible vehicle or CNG conversion system must be a person or entity licensed by the Chicago Department of Business Affairs and Consumer Protection (BACP). The license must be in good standing with the City of Chicago to operating a taxicab, livery vehicle or other public vehicle.
- The purchaser must choose an eligible vehicle or eligible CNG conversion system. Bi-fuel CNG systems are eligible. Hybrid vehicles are not eligible. List of eligible vehicles and eligible conversion systems for taxicabs, livery vehicles, and other public vehicles is available online at <http://drivecleanchicago.com/>.
- An approved vendor will submit the voucher request on behalf of the vehicle purchaser. The vendor will be able to fully redeem the voucher once a new vehicle is purchased or the conversion is complete. A list of approved vendors is available on the Program’s Web site at <http://drivecleanchicago.com/>.

Application Form

Type of vehicle (please check only 1 box):

- TAXICAB LIVERY OTHER PUBLIC VEHICLE

Purchaser Information
